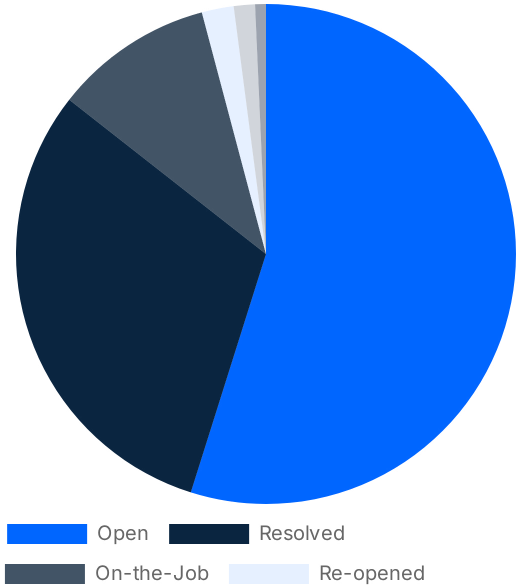
BLR Municipality Issue Log Analysis

Key Insights & Action Areas

COMPLAINT OVERVIEW: STATUS AND BACKLOG ANALYSIS

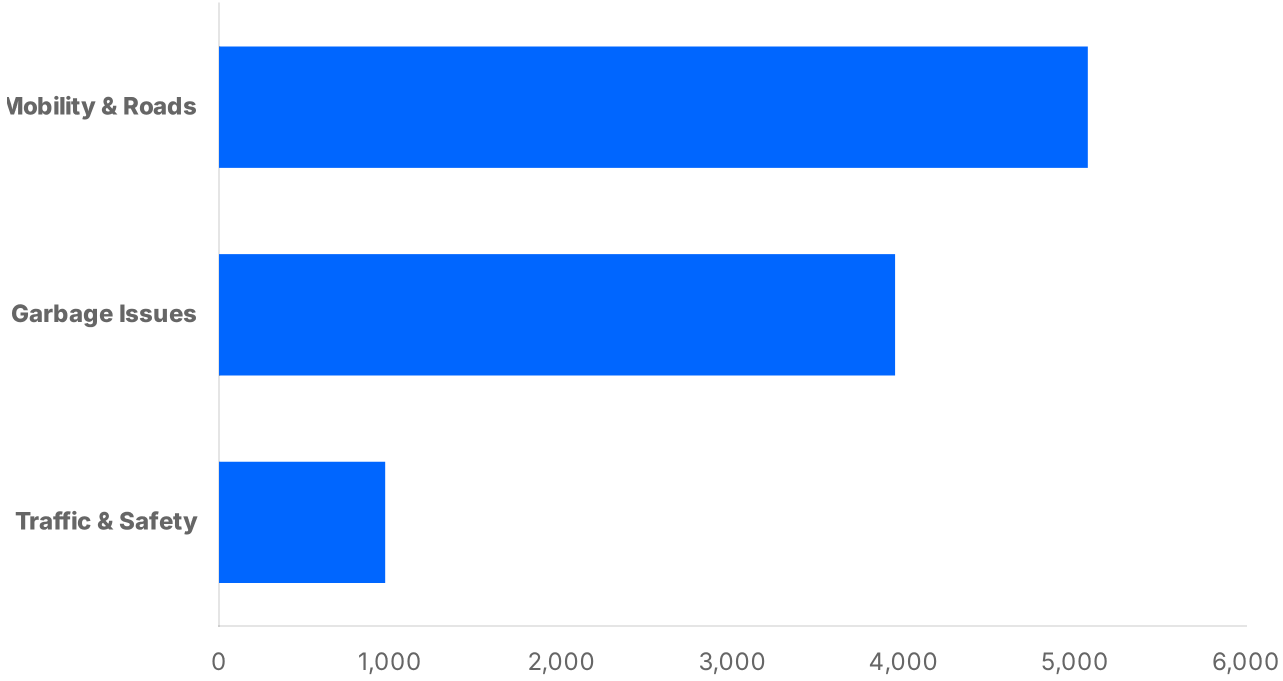


Status	Count	Percentage
Open	8,817	54.9%
Resolved	4,937	30.7%
On-the-Job	1,653	10.3%
Re-opened	332	2.1%
Rejected	220	1.4%
Closed	112	0.7%

Key Insight

Complaints are being raised faster than they are resolved, leading to a significant backlog where 55% of all cases remain in an "Open" status.

PROBLEM AREAS: TOP CATEGORIES AND GEOGRAPHIC HOTSPOTS



Geographic Hotspots

727

BELLANDURU (TOP WARD)

Issues are heavily concentrated in wards: **Bellanduru** and **Begur** (535 complaints), with **Vasanth Nagar** identified as a primary concern location for recurring infrastructure failures.

Key Insight

Infrastructure and sanitation constitute the majority of citizen concerns, requiring targeted resource allocation.

STRATEGIC INSIGHTS AND ACTIONABLE RECOMMENDATIONS

CORE FINDINGS

Systemic Issues

Roads and garbage issues constitute the majority of complaints. High-density areas like Bellanduru and Begur show repeated systemic issues rather than isolated incidents.

RECOMMENDATIONS

Targeted Action

Focus resources on roads and garbage-related problems. Deploy rapid response teams to high-complaint wards to handle issues faster.

TARGET METRIC

Backlog Reduction

Aim to reduce the current "Open" case percentage by 20% within the next fiscal quarter through streamlined approval workflows and localized maintenance plans.
